

CERA FLUIDA

Liquid wax

Cera fluida is a liquid solvent-based formula composed of a mixture of rich waxes. Especially recommended for polishing marble, granite and natural stone. Cera fluida does not leave water or marks on the surface, repels moisture and reduces the accumulations of dust, cleans without effecting stone. Due to the solvents in this formula, just a single application, removes every traces of dirt while creating a brilliant, protective wax film.

FUNCTION	Solvent-based liquid wax.
INDICATIONS	Protects and shines treated surfaces, enhances a polished shine possible.
MATERIALS	Especially designed for all polished natural stones.
USAGE	<ol style="list-style-type: none">1. Spread evenly oversurface with clean cotton rag, stroking to allow for penetration.2. Wait several minutes, then polish with a clean rag, steel wool pad or with a buffing machine.3. Using with automatic polishing line to bring out the best shining.
