**System care in accordance with the Formanek method  
(patent no. AM 2291/99, reg. no. 187762)  
for natural and cast stone.  
Cleaning - Protection - Care  
Hydrophobizing - Oleophobizing – Acidophobizing**

## Technical data sheet

- Description:** M29 **ÖL-/WACHSENTFERNER** oil and wax remover allows you to leach stains of candle wax, oil, grease, tar etc. out of the stone. The product contains neither benzene nor hydrocarbons.
- Application:** Apply **M29** oil and wax remover undiluted to the stone. The period of action is between 30 minutes and 5 hours.  
Once the treatment is finished, thoroughly brush the treated surface with **KRAFTREINIGER INTENSIV** intensive cleaner (diluted with water in a proportion of 1:10) before you wash it with clear water.  
If there are still some stains left, repeat the procedure.
- Delivery lot:** Bottle of 0.5 litre
- Important note:** Full performance and effectiveness of M29 **ÖL-/WACHSENTFERNER** oil and wax remover is only granted if the cleaning and care products required by the "Formanek method" are used before and after the treatment.
- Safety:** The product does not cause any risk to human health or to the environment.  
For further information, please refer to the safety data sheet.
- Storage:** No special storing requirements.
